## OFFICE OF THE PUBLICITY OFFICER TO THE GOVERNMENT OF MYSORE, PUBLIC OFFICES, BANGALORE.

*No. P.* 18—40-41, *dated* 19*th September* 1941.

PRESS NOTE.

**Clandestine Manufacture of Fireworks.**

Instances have come to the notice of the Department of Mines and Explosives in Mysore, where licensees manufacturing explosives, instead of doing so in the places indicated on their licenses, clandestinely manufacture them in their own dwelling houses or sale premises within closed doors during night time. As such places are generally situated on public roads in congested localities and since such a practice is liable to endanger public safety, persons in the know are requested to guard themselves against eventualities by promptly reporting the names of such licensees to the Local Police Authorities. The object of bringing this to the notice of the general public is in view of the approaching Deepavali festival when the licensees are likely to transgress the conditions of their licenses owing to the demand for firework articles during the season.

Many accidents, caused during the illicit manufacture and handling of a variety of fireworks commonly known as "Pattas" or "Bellulli Pattas" throwdowns or small bombs—consisting of a mixture of potassium chlorate and arsenic or antimony sulphide or sulphur—have come to notice. These accidents have resulted in serious and sometimes fatal injuries to the persons manufacturing or handling the mixture, besides doing damage to property. The mixture constitutes a highly dangerous explosive to friction, force (blows) and even liable to ignite spontaneously. As this firework composition is mostly used during Deepavali and Shaban festivals, the department has also issued timely warning by a notification in the Official Gazette, to all persons concerned not to manufacture, possess or sell this dangerous explosive.

Any persons manufacturing, possessing or importing such a mixture will be rendering themselves liable for punishment under the Law.

*Publicity Officer to Government.*
